(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

- ☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

While part of the invention I intended to cover:

1. I failed to claim frequency sharing by first and second independent radio communication systems where each independent radio communication system is assigned a control channel from a predetermined frequency range over which the systems operate. See new claim 25.

2. I also failed to claim a network information transmitter for transmitting operational characteristics for more than one of the wireless communication networks to each of the portable radio devices and a control signal generator for causing access to a network based on the operational characteristic transmitted. See new claim 45.
